MARITIME RISK ANALYSIS	Control Risks' maritime information team provides expert research and analysis on maritime security issues such as piracy, terrorism, port security, robbery, theft and international naval disputes.
RISK ASSESSMENTS AND SECURITY PLANS	Clients can commission bespoke threat assessments and security plans on marine facilities and operations to assist with planning, training and implementing all aspects of maritime security and crisis management.
VESSEL SECURITY REVIEWS	Control Risks consults on counter-piracy security design and vessel hardening and undertakes vessel security reviews and audits to ensure compliance with BIMF standards.
OFFSHORE MARINE SECURITY	We have substantial experience in the security design of ports, warehouses and offshore marine operations to enhance key assets.
COUNTER-PIRACY OPERATIONS	Control Risks has highly trained teams who deliver onboard security and advice, review, detect and delay before deterring.
PIRACY INCIDENT MANAGEMENT TRAINING	We offer training designed to help clients manage the response to a piracy incident more effectively and with greater confidence.
KIDNAP AND RESPONSE CONSULTANCY	Control Risks is the world leader in resolving cases of kidnap, extortion and legal detention, covering all aspects of maritime piracy, kidnap communications and negotiation strategies.
MARITIME SECURITY ONLINE	Control Risks' Maritime Security Online is an information platform that provides up-to-date, predictive analysis of all events, trends and developments in the global maritime sector, designed to assist clients in identifying, assessing and mitigating key maritime risks.

OUR SERVICES IN MARITIME SECURITY INCLUDE:

Control Risks is a global risk consultancy specialising in integrity, political and security risk.
